Attempted Murder

PLEASE FILE IN COURT FILE
15CF 18687

Dear Honorable Judge Pluck

Director of Nurses Anita Flaherty of Armor Health Services willfully, Knowingly, Intentionally Avoided A Doctor from seeing me the weekend of Hurricane IRMA.

I was taken to Lee Memorial Hospital Sunday Afternoon Sept 10th, 2017 After All emergency Road services were Suspended because I was dying. My Appendix had been Ruptured for 2 days while I was in severe pain, with Deputies my witnesses, nurses with documented complaints. My temperature was OVER 104°, my Appendix was Infected created "Bowl Obstruction" specialist were brought in, I spent 10 days in the hospital.

Anita Flaherty verbally Attacked me while in the examroom trying to cover it up. She stated to me As she pushed the computer screen At me "NOW COME there Are NO Complaints About Any of this! No matter what is Wrong with you, your not going Anywhere, your getting treated Right here!"

This statement was made infront of Corporal Miller, Nurse Shannon And the Doctor. I told Flaherty "I was given A Laxitiv on Friday, last night the nurse told me she talked to the Doctor Outside Smoking A Cigarette, And she was suppose to come see me"

NOTE: The Doctor confirmed it being true. I was told last week from Another Doctor "it was her first weekend, And people have been fired over this!

Sequence of events for her arrest stepped out As follows with listed witnesses of All Allegations:

Attempted Murder Evidence

Sept 7- My Appendix started hurting. I question my cellmate over and over about his symptoms before he had his removed. I waited to complain before I was sure, and the pain was getting worse.

Sept 8th- Corporal Miller seen me in pain walking to the shower, she asked me what was wrong. I said "Its my Appendix it needs to come out" I asked her to have a nurse come see me after my shower.

A nurse came with DEPUTY PEAKS (Heard it all) I told here what was going on and "Its my Appendix, this is severe pain, I can't eat or sleep" She said "It's probably Constipation" I said "No, I went to the bathroom earlier, I've never been Constipated in my life" She said "You'd be surprised. I've had gas that brought me to tears"

She brought me some green colored "High powered" Laxitiv and gave me an extra shot and said "Your going to hate me over this"

Sept 8th- I asked Corporal Miller if I could use the Big shower because it has a toilet, she knew I was given a Laxitiv.

Sept 9th- The evening nurse walked by with DEPUTY BELL I stopped her told her everything and said "I NEED a Doctor it my Appendix this is killing me!" She acknowledged the pain of Appendix because "She had hers taken out" She told me "There is a Doctor on site, she is very approachable, I'll talk to her for you"

Attempted Murder Evidence

Sept 9th - One hour later the nurse arrives back to my cell she said "She forgot to take my VITALS. I spoke to the Doctor while outsid on Cigarette BREAK, she is going to come see you"

Sept 10th - About 5am, Deputy Bell AGAIN present, I seen her passing out meds to cell #5 and asked ~~her "Where~~ her "Where is the nurse" She said "She is suppose to come see you"

Sept 10th - Nurse Shannon passed my cell about 8am, I stopped her and told her what was going on I said "I NEED A Doctor! I feel like Im going to die! I haven't slept in 3 day's or Ate" She said "Well she is suppose to come see you"

Sept 10th - After Lunch - Corporal Miller takes me in the examroom I get on the table, Nurse Shannon and the Doctor were Also present As Director of Nurses Anita Flaherty verbally Attacks me (3 witnesses present) and says:
"How come there Are No Complaints About this from You! Your Not going Anywhere, No matter what's wrong with you, your getting treated Right here, there is A Hurricane, All Roads Are Closed"

Attempted Murder.

I said "I was given a Laxitiv Friday for my Appendix, the Nurse last night told me she spoke to the Doctor About me and she was going to come see me"

NOTE: THE Doctor Confirmed, it's very clear Someone stopped her from treating me. There were No Other Emergencies if she was Outside Smoking.

I pleaded for pain meds, At least, Any Nurse would know A Ruptured Appendix is DEADly and while I was dying with SWEAT on my Forehead A 100° temperature she verbally threatened to let me die.
I was taken back to my cell About 1 hour later I was told, "to pack it up your going to the Core" I Arrived at Lee Memorial Hospital, My temperature OVER 104°.

My Ruptured Infected Appendix was Removed during Hurricane IRMA, I spent 10 days in the hospital due to nearly dying because Anita Flaherty and collosion with LCSO wanted me to die.

On May 15th, 2017 I was picked up by Cape Coral Police while I Answered the door At home, for Alleged Pre Trial Violation. A warrant was signed on May 11th, but Not filed until they had me in the driveway. 4 Officer's were present, the Arresting Officer found it All very Strange the CCPD were picking me up

Attempted Murder

My case is under Federal Investigation, so they feared I was not going to show up to court on May 16th, so Bailiff Grant Setzer called CCPD to have me picked up.

I was taken to jail, the Arresting Officer was going to Call the Chief about what was going on. I was put in 6 South, And a terrible Suit I was not unruly, disrespectful to Anyone, they put me in there for no just cause.

I was cleared to be housed in population on May 16th again on May 17th And I thought May 18th, And was cleared May 19th. On May 20th, I was moved to the Medical Block in the Mental Health section, where I stayed until Sept 10th, when my Appendix was Removed.

My Booking Sheet shows A BAKER Act placed on me At 6:08 pm on May 18th, 2017. I questiered Medical via Kiosk on June 12th.

Director of Nurses Anita Flaherty Response 6/13/17 8:59 Am

" I Dont want your Booking sheet Details. From your record it shows your charged with threatening Officers. And just because your Baker Acted doesn't necessarily mean your taken to Salus Care. You were in Direct Ops, we checked on you regularly "

Note: The Baker Act is Fake, I was moved on Saturday morning May 20th, therefore proves Anita Flaherty Collusion to make me look crazy.

Attempted Murder

On Oct 3rd, 2017 I was taken to Medical to see A Doctor the doctor informed me "People have been fired over this. The Doctor was new it was her first weekend. She fought for you to get you to the hospital"

NOTE: Anita Flaherty clearly stopped the doctor Saturday from seeing me, probably told the Doctor "I WAS CRAZY". Infront of 3 people Flaherty was caught Conspiring of Alleging I did not complain to Anyone.

I want her criminally charged for my Attempted Murder by Neglecting me of Medical care with A very long trail NOBODY can cover up.

You JUDGE are highly Aware of case 04-CF-001624 An illegal conviction, And the cover up of this case in retaliation of your corruption in the 20th Circuit.
Federal Authorities are highly Aware of this Murder Attempt.

Sincerely

G. Scott Goodyear 10/14/17
