Statement of Concern

The United States investors appreciate the deployment of the FBI and DEA to Costa Rica. However, the conspiracy involving narco-terrorism, organized public corruption and international human-rights violations directed at U.S. investors has only worsened. Specifically, the following public corrupt government officials and public corrupted attorneys are accused of tampering with extensive, indisputable public-court records held by the Costa Rican government and of participating in a broader scheme of international terrorism, violent wrongdoing, and conspiracy to murder United States Investors in Costa Rica for their Real Estate properties Hotel Business and Home :

- Public Corrupted Francisco Eiter Cruz Marchena, President of the Colegio de Abogados
- Public Corrupted Viamney Guzmán Alvarado, Public Prosecutor
- Public Corrupted Karl Villalobos, Attorney

These individuals are alleged to have:

1. Altered and suppressed critical court documents
2. Committed or facilitated acts of terrorism and human-rights abuses
3. Engaged in organized public corruption and violent assault
4. Aided and abetted a conspiracy to murder United States investors

Their possession of documented government records evidencing narco-terrorism—and even an investigative press photograph of the murdered attorney José Antonio Calderón Vargas—underscores the urgency of an independent, international investigation.

At the direction of Witness President Rodrigo Chaves, I reported a group of identified corrupt government officials and attorneys to the appropriate authorities. Those individuals are:

- Public Corrupted Fiscal Attorney Eduardo Mora Casconte (Jaco Police Department)
- Public Corrupted Police Officer Donaldo Bermúdez Rodríguez (Jaco Police Department)
- Public Corrupted OIJ Police Officer Michael Soto Rojas

Public Corrupted attorney YULIAN MASIS AGUILAR Costa Rica Witness Protection Department

Shortly after I complied with Witness President Rodrigo Chaves's instruction, each of them committed additional crimes against me. They currently hold critical government incriminating public records evidence—including photographs of the dead body of Attorney José Antonio Calderón Vargas, who was murdered in an apparent act of narco-terrorism—and have continued to engage in the following unlawful conduct:

1. Aiding and abetting death threats
2. Orchestrating false arrests
3. Attempting to expel me from Costa Rica
4. Assaulting and attacking United States investors in Costa Rica
5. Narco Terrorism

Their actions constitute multiple violations of both Costa Rican and international law:

- International terrorism and related human-rights abuses
- Obstruction of justice
- Organized public corruption, including cover-ups of assaults and attacks
- Slander, defamation of character, and discriminatory hate crimes against U.S. investors
- Tampering with incriminating public government records in their possessions.

All of these offenses are documented in Costa Rican government 7 court's public records, up to and including the Supreme Court. Their ultimate goal is to rob all their money and deprive U.S. investors of their real-estate holdings and hotel businesses in Costa Rica.

Furthermore, the Costa Rica Witness Protection Department—a public government agency that has become institutionalized and weaponized—is corrupt. It systematically targets United States investors for false arrest, expulsion, and even murder, all to seize their real estate holdings, hotel businesses, and homes. The department's attorney, Yulian Masis Aguilar, is himself a named and identified public corrupt government official.

Shortly after Witness's President Donald J. Trump, U.S. Secretary of State Marco Rubio, and U.S. Homeland Security designated the identified public officials as national threats barred from entering the United States, Public Corrupted attorney YULIAN MASIS AGUILAR sent me a public-government records email on March 19, 2025. In that email, he instructed me to report these crimes to Jaco Police Department Fiscal Attorney Eduardo Mora Casconte. Public Corrupted Government attorney Mora Casconte also appears on U.S. national-security threat records for conspiring to set up U.S. investors in Costa Rica to be murdered. He retains all pertinent court records and evidence of these schemes—including a photograph of a narco-terrorism victim of the found naked dead body in the possession of Fiscal Attorney Eduardo Mora Casconte.

This is the same modus operandi that Jaco Police Officer Donaldo Bermúdez Rodríguez, also publicly identified as corrupt, used against United States investors in Costa Rica.

On March 12, 2025, OIJ Police Officer Michael Soto Rojas used the same modus operandi against United States investors when he sent me a public-government records 17 pages email threatening their murders. He wielded incriminating narco-terrorism documents—including a photograph of a corpse in his possession—as leverage to intimidate and endanger them.

Public Corrupted Costa Rican Government officials have institutionalized and weaponized corruption across multiple government agencies—the Jaco Police Department, the Judicial Investigations Organization (OIJ), the Witness Protection Department, and the College of Attorneys—to facilitate the

murder of U.S. investors and the appropriation of their assets, including funds, hotels, and private residences. These Public Corrupted Government agencies retain narco-terrorism records and photographic evidence of the deceased public corrupted attorney José Antonio Calderón Vargas, which they use to target United States American investors in Costa Rica.

- 4.Public Corrupted Government OIJ Police Officer Michael Soto Rojas, Judicial Investigation Organization (OIJ).
- 5.Public Corrupted Government attorney YULIAN MASIS AGUILAR Costa Rica Witness Protection Department

It is alleged that these Public Corrupted Government officials have publicly engaged for the Word To See in

- Aiding and abetting narco-terrorism;
- Conspiracy to murder and murder cover-ups;
- International human rights violations;
- Obstruction of justice; and
- Organized public corruption.

Conspiracy to steal Real Estate properties from United States Investors in Costa Rica.

These unlawful actions have reportedly resulted in public killings, including the slaughter of children in public, as documented by investigative press reports and by Minister of Public Security Mario Zamora (La Republica, March 11, 3025)

The named and identified Costa Rican public government officials and attorneys have unlawfully aided and abetted a corruption cover-up. They publicly sabotaged my Hotel Business, my home, extorted me and stole all the funds in my United States Wells Fargo Bank account, leaving me with no money for food or medical care for the assault, attack injuries, and conspiracy to murder committed against me on December 31, 2024. They knowingly, intentionally, and deliberately attempted to silence me.

Corruption Crisis has Devastated Costa Rican Economy and Tourism In a shocking turn of events, Costa Rica finds itself embroiled in a corruption scandal of monumental proportions. A recent public documented News Press Investigative Reporters stated Over the past week, 20 government employees have been arrested in four significant corruption cases, involving judges, lawyers, 5 transit police officers and administrative staff. According to public news press investigative reporters, by Indira Zuniga / 25.06. 2024 08:42:00. for the World to See

All Costa Rican government records, evidence, and criminal complaints have been publicized for the world to see at <https://enzovincenziusa.blogspot.com>. Copies of these public government records and evidence are also in the hands of key witnesses, including Witness's President Rodrigo Chaves, President Donald J. Trump, U.S. Secretary of State Marco Rubio, the FBI, the DEA, U.S. Homeland Security Director Kristi Noem, and INTERPOL (the International Criminal Police Organization).

These same Costa Rican officials, attorneys, and police officers have unlawfully rigged and weaponized the public court system to falsely arrest—and even murder—anyone who stands in their way. Their goal is to strip victims of all their money, real estate holdings, and hotel businesses.

It is further alleged in news media and investigative reports that corrupt government officials have engaged in death threats and are trying to set up President Rodrigo Chaves for arrest. This is the same unlawfully rigged modus operandi of a weaponized court system that was used against President Donald J. Trump in an attempt to have him falsely arrested and murdered by corrupt government agents and former FBI Director James Comey.
