U.S. Officials and Agencies

Dear Tecnico Judicial Mora Lobo, President Trump, Secretary Rubio, and U.S. Officials,

Per the request of Tecnico Judicial Mora Lobo, I have submitted the relevant documents for my cases electronically. The attached download links contain a collection of all available evidence.

The economic situation in Jaco is dire and worsening daily. In the last three weeks, more businesses have closed than in the previous three years combined, and many more are set to close their doors. There are almost no tourists, and the town is becoming a ghost town. All the rental houses are empty, with some having been vacant for more than six months. The Costa Rican economy is collapsing in an unprecedented way.

I am told by everyone I speak with that I am the only one who remained in the country to continue fighting the international and NARCO terrorism directed at United States investors. All other investors fled in fear, losing their money and real estate properties. This is how the perpetrators consistently escape accountability. Some investors were arrested, expelled from the country, or murdered. These deaths were not reported by the news media, presumably because if the public knew the truth, the Costa Rican economy would collapse, which it has now done.

On behalf of myself and other United States investors, I am formally requesting an agreement be made between Costa Rican and U.S. officials. The purpose of this agreement would be for the U.S. to help provide needed relief to American investors in Costa Rica.

This relief should begin with me being compensated for what the United States investors and I have been through. I am asking for a negotiable sum of \$40-50 million USD or more. This is for all the damages and the international, organized, systemic, and weaponized psychological torturous public corruption crimes committed against me.

The proof of these crimes is found in the public records of numerous Costa Rican government bodies, including:

- Costa Rica Government Courts
- San Jose College of Attorneys
- La Contraloría General de la República
- Puntarenas Court
- Government bank accounts
- OIJ San José Police Department
- OIJ Jaco Police Department
- Jaco Police Department
- Jaco Municipality Real Estate Property Tax Department

These actions were directed against my hotel business, my home, my dog, and me. The attached files present the evidence of this life-and-death situation and show the immediate remedies that are required.

Respectfully Submitted, Enzo Vincenzi
